

## Home Services Drive Starts On Monday

As previously announced the Salvation Army Home Services Drive will commence on Monday, Sept. 18, and continue for two weeks. The drive is being sponsored on the Saanich Peninsula by the Saanich Peninsula Branch of the Canadian Legion. The services of the army on the home front are many and varied, including hospitals, rescue homes, homes for the aged, sick, visiting and a vast and comprehensive program of work among the youth of the commonwealth. Any money subscribed to the Army Home Services is certain to be put to good use. The response to the appeal in the district for the last two years has been splendid and it is hoped that the response this year will be even better. It is therefore sincerely hoped that all will do their best when the canvasser calls. Anyone able to devote a little time to the canvasser will be cordially welcomed and their help greatly appreciated. It should also be pointed out that any money subscribed in this drive will go directly to the Salvation Army Home Services Fund and NOT to any community chest.

If you happen to be missed by the canvasser subscriptions will be gratefully received by either of the following, also any offers of help in the canvasser:

William Douglas, Hon. Sec.-Treas. Saanich Peninsula Branch, Canadian Legion, "Eglington," East Saanich Road, Saanichton. Phone Keating 5-W.

F. E. Collin, Box 4, Sidney, 1462 Third Street, Sidney. Phone Sidney 125-X.

## NEW RATION BOOKS READY IN OCTOBER

New ration books will be distributed during the week of October 14 to 21. A. B. Food, W.P.T.B., has announced. Book No. 5 will be good for 50 weeks instead of 34 weeks as provided by the book now being used.

"This new book will not need to be replaced until November, 1945, and with the peak of wartime population expected in Greater Victoria, it is passed that it will be distributed to a slightly larger number of people than Ration Book No. 4. Some 88,000 books were distributed in Greater Victoria last year," Mr. Food stated.

No information as to changes in coupons or items included in the new books was available. Exact dates for distribution have not been set yet, but will be for three days within the week of Oct. 14 to 21 and will be carried out in similar manner to distribution of previous books. Mr. Food said he understood books would be issued on surrender of the complete sheet of K coupons, on which name, address and serial number should be filled in.

## SPREADING OF CHRISTIANITY FIRST W.A. TASK

The persuasive power of women for good was the main thought stressed by the Rev. F. Hardy at the last meeting of St. Paul's Women's Association.

"The Women's Association is a Christian society," he declared. "Its highest task is to exercise Christian influence. Social service is secondary to missionary purpose. The coming of Christ was first announced to women. Women 'ministered of their substance,' during His brief life work. No woman ever denied or betrayed her Lord. Women were very active in the early church. This is remarkable, since to the Jews, woman was inferior, isolated, not allowed near the altar, not educated, denied justice, could hold no office. Christ emancipated womanhood."

"The faith was spread" by women. The woman of Samaria was the first missionary. The gospel was introduced into Europe through the influence of Lydia. Among earliest Christians in Britain were Bertha, wife of Ethelbert of Kent, and then daughter Ethelburga, wife of Edwin of Northumbria, in whose realm a woman with her babe could walk from coast to coast and fear nothing. Throughout our history we find the persuasive power of women, like Susanna Wesley and Catherine Booth.

"Manhood's faith is weak today, through generations lost in war, with tragic train of broken bodies, broken hearts and broken homes. Loss of faith is the saddest of all losses. Peace brings religion of fair play and integrity is virtuous, but no more Christian than Judaism or Buddhism. Christ's test was 'what do ye more than others?' a standard too high for many, who find the Gospels too great for 'small hearts.'"

"Women cannot remain satisfied that their men folk should remain indifferent to Christ. It is his to them, to the country and to the Kingdom of God. Keep the standard high, do not tone down the gospel to popular ideas, but remember that mothers, sisters, sweethearts and wives are listened to; and that if an unworthy woman can lead a man to dedicate a throne, a good woman can lead a man to enslave Christ."

The meeting was held in the church parlors. Mrs. H. T. J. Coleman presiding.

## Brush Fire At Retreat Cove

SAANICHTON, Sept. 13.—The serious brush fire which broke out at Retreat Cove on Wednesday last week, is being fought by all available manpower. The nature of the terrain in that neighborhood makes fighting very difficult, smoke being for the most part steep, rocky hillside. There are no homes in the path of the fire.

*about the things you buy in wartime*

**Milk IS NOT ELASTIC**

Milk is our most valuable food. It must provide us with milk to drink, with butter, cheese, evaporated and concentrated milk and a score of other products.  
Canadian farmers have done a magnificent job. They have increased milk production in 1943 by more than 540 million quarts over 1938. They have done this in the face of a 25% reduction in farm help, equipment shortages, and the fact that it takes two to three years to bring a calf into milk production.

**WHAT HAPPENS TO ALL THIS MILK?**

In spite of greater production, the demand for milk and milk products has risen even more, because:  
(a) There's more money to spend;  
(b) More people are working, with changed food habits and increased food needs;  
(c) Our Armed Forces and Allies make heavy demands.  
It has therefore been necessary by rationing, by subsidies, by careful planning and by other controls to divert our milk supply into channels most suited to our various food needs.

**FLUID MILK**  
TAKES 35% OF OUR MILK  
Because fluid milk is regarded by nutritionists as the most nearly perfect food, nothing has been allowed to interfere with its sale. Today, Canadians are drinking more milk and a greater percentage of our milk supply is being consumed as fluid milk than ever before. Fluid milk has the right of way, but don't waste a drop of it.

**BUTTER**  
TAKES 48% OF OUR MILK  
In the first three years of war, our butter consumption increased 10.9%. So, rationing was established to prevent too much milk going into butter, at the expense of other important milk products, and to insure a fair share to everyone.  
The rationing of butter was influenced by the fact that it has less nutritive value than some other milk products, and because we get a generous supply of fats or their food equivalent in other forms.  
To maintain a proper balance of consumption between various milk products and to ensure that butter is put into storage for winter use when production drops, it is necessary to reduce the ration from time to time.

**ICE CREAM AND OTHER MILK PRODUCTS**  
TAKE ABOUT 1% OF OUR MILK  
The manufacture of ice cream is restricted to the 1911 level because milk is needed for other purposes.  
Milk powder and Condensed Milk are taken

**CHEESE**  
TAKES 10% OF OUR MILK  
Canada's annual cheese production has gone up by about 37 million pounds since the war.  
Cheese is a concentrated food product—easily shipped and stored. That is one reason why we send large quantities to Great Britain to help meet its pressing food needs. While in the last year we exported four of every five pounds of cheese we made, our production has been so increased that we have left for domestic use about three million pounds a year more than before the war.

**EVAPORATED MILK**  
TAKES 6% OF OUR MILK  
More than twice as much (152 million lbs.) was used by Canadians this last year as in 1938 (74 million lbs.). And yet, there has not been enough.  
Where has it all gone? It's an important food for babies—and there are 60,000 more of them a year. Larger quantities have gone to areas where fresh milk is not available. Armed Services have added new demands. In spite of this, our exports of evaporated milk to Great Britain, New Zealand and the West Indies, etc., are maintained at pre-war level.

## N. SAANICH CONSOLIDATED SCHOOL NOTES

All schools in the district have opened for another term with a total enrollment of approximately 300 students and 12 teachers.

Parents of the district can assist the school staffs in many ways. Some of the most important of these are:

- Let illness be the only reason for keeping your child at home.
- See that the child leaves early enough in the morning to be in time for school.
- If the child is absent or late send a note to the school giving the reason for the absence or tardiness.
- If the child carries a lunch see that the lunches are adequate and have a variety of foods. Consult the pamphlet sent home last year, "The Lunch Box."
- See that students with assignments have adequate time and a suitable place to study.
- Join the Parent-Teacher Association.

**NATIONAL FILM BOARD**  
The National Film Board will open its fall program in this district on Sept. 28. The feature film will be "The War in Russia." There will be a showing for adults at 8 p.m. in the High School.

**SPORT**  
Four games of softball were played on Friday afternoon on the school grounds. Several members of Grades 6 and 7 followed this up with a swim at Patricia Bay.

**CORRECTION**  
In reporting on staff personnel last week the Review mentioned that Mrs. Jean Beckwith had been appointed to the High School staff. This should have read Miss Jean Beckwith.

**RECEPTION**  
On Monday afternoon the members of the School Board and the teaching staff held an informal gathering in the High School to welcome new staff members.

## FRESHER, CHEAPER FOOD for your table by men who think of tomorrow

**TOMORROW'S EVERGROWING GARDENS . . .** Why should garden-fresh vegetables be available only in summer? Why should rich, ripe strawberries be a luxury in winter? Men who think of tomorrow are doing something about it. In Scotland, where seasons are short, it has been possible to grow six to eight crops of vegetables a year by heating truck gardens with underground steam pipes — under glass in winter, open to the air in summer.

**MEN WHO THINK OF TOMORROW** are planning to feed the world better than it has ever been fed before. To make it healthier than ever before. It is a glorious future to which we may look . . . but only after the war is won!

Are you working at your "war job" as hard as you can?

Are you saving and turning in waste paper to help meet the serious shortage of this country's trees in the manufacture of containers for war materials?

Are you collecting and turning in every last bit of food from your kitchen to help feed the hungry machines that turn it into TNT?

Are you heeding the Government's plea to

curtail your personal travel so that troops and supplies can move freely over our already congested transportation systems?

Have you added your blood to that of millions of others to provide life-saving plasma for our wounded?

And have you increased your purchases of War Savings Certificates and Victory Bonds to the limit of your ability . . . and are you holding on to them?

Only by working as hard as we can at these and scores of other "war jobs" will we be sure of Victory . . . and the ever-opening fruits of Victory. Let us all be MEN WHO THINK OF TOMORROW!

## ★ THE HOUSE OF SEAGRAM ★

**OFFICIAL SECRET**  
**... but thousands knew it!**  
  
**The Incident...**  
 A year or two back, a crowd of hundreds of people  
 gathered around a dock and along the shoreline of a  
 Pacific coast port, awaiting the arrival of one of the  
 world's largest ocean liners, the Queen Elizabeth...  
 The name of the vessel and the time of arrival were  
 an official secret!  
**How did they know?**  
 There can be only one answer: SOMEBODY TALKED! This  
 was valuable information for the enemy which could have  
 resulted in disaster—loss of many lives, loss of a great ship.  
 Any information whatsoever about the movements of ships,  
 planes, men and materials is a military secret. If you have such  
 information, whether it seems important to you or not, DON'T  
 TALK ABOUT IT! Enemy agents are everywhere!
